QUALITY POLICY STATEMENT

Whyte & Co strives to develop a spirit dedicated to the pursuit of quality and the continuous improvement process that is based upon the BS EN ISO 9001:2015 quality management system model.

Quality is defined as “meeting the clients requirements”, where the product and service requirements are defined and measured by the client.

Key elements of this policy are:

- A belief in people and their ability to generate and implement the ideas which are fundamental to the process of continuous improvement
- A commitment to education and training which results in empowered employees striving for continuous improvement
- A systematic and regular review of all aspects of management to ensure that our efforts are focused on the process of continuous improvement
- The constant appraisal of our client’s requirements and of our competition in order to benchmark our continuous improvement

The result is a company that is able to respond rapidly, professionally and competently to any organisations management requirements.

It is believed that adherence to the above will facilitate self-sustaining excellence.

The partners accept that the Company procedures do not override the necessity to comply with the applicable laws and constraints of this country or with any other international regulations associated with the provision of enforcement agency services.

Review

This policy is reviewed at least annually
